Subject: Sprinkler Water Pipe Leak in GEH-C Warehouse 55 Brandon Avenue, Feb 17, 2015

On February 17th, 2015, at approximately 12:40 pm, a sprinkler municipal-water pipe leak occurred outside of the production building at the BWXT Nuclear Energy Canada Toronto facility. The Toronto Fire Department responded and turned off the water supply. All relevant authorities have been informed. Water samples were taken and the evaluation shows no indication of any impacts to health, safety and the environment of employees or the community as a result of this incident.
