Returning to the Office

BWXT remains committed to providing a safe and healthy environment at all of our facilities. In anticipation of stay-at-home orders gradually expiring across our facility locales, BWXT is prepared for a phased reoccupancy of office buildings where teleworking was implemented. More site-specific guidance from your management regarding in-office schedules as our communities reopen over the coming weeks will be forthcoming. New or enhanced requirements and precautions in addition to those already in effect during standard BWXT building operations are as follows:

Communications

Please visit the coronavirus page on myBWXT for all related BWXT guidelines and helpful reminders of physical distancing and other preventive recommendations by the U.S. Centers for Disease Control and Prevention (CDC) and Health Canada.

Cleaning and Sanitizing Surfaces

BWXT has enhanced cleaning services strictly adhering to the CDC’s and Health Canada cleaning guidelines with a greater focus on sanitizing spaces and surfaces, including:

- More frequent cleaning of high touch surfaces and areas
- Increased cleaning of entrance doors, lobbies, restrooms and elevator interiors
- More frequent, thorough cleaning and disinfecting of stairwells and handrails in anticipation of increased stair traffic
- Hand sanitizers are available at office entrances, elevator lobbies, stairwell entrances and other strategic locations

Physical Distancing and Personal Protective Equipment (PPE)

- Maintain recommended physical distancing (keep at least six feet of separation from others) and wear a cloth face covering per local office guidance
- Maintain proper hygiene by frequently washing hands or using an alcohol-based cleanser
- Temperature monitoring will be conducted at major office locations
- Stay home if you are sick, or if you have been exposed to someone who is sick
- Limit the number of guests/visitors in your office
- Follow state and local guidelines regarding limits on meetings and gatherings
- Host and attend virtual meetings when possible
- Ensure vendors are knowledgeable of and follow local-site prevention guidance
Safe Use of Elevators and Stairwells

- Practice physical distancing to the extent possible
- Consider taking the stairs and using the hand rails instead of a crowded elevator
- Use hand sanitizers before/after stairwell and elevator use
