Subsidiaries and Locations

Savannah River Mission Completion (Aiken, SC)

In 2021, the U.S. Department of Energy (DOE) selected Savannah River Mission Completion joint venture led by BWXT to accelerate cleanup at the DOE's Savannah River Site through safe nuclear operations, optimized and integrated mission execution and strong corporate governance.

- Provide a comprehensive risk-based methodology to the SRS legacy cleanup project
- Safely remove and prepare liquid radioactive waste for storage through vitrification, which immobilizes the waste
- Integrate the Salt Waste Processing Facility into the SRS liquid waste system to maximize salt waste processing and tank closures

SRMC provides many skilled and trade labor opportunities for the local area

People Strong

INNOVATION DRIVEN >

At BWX Technologies, Inc. (NYSE: BWXT), we are People Strong, Innovation Driven. Headquartered in Lynchburg, Virginia, BWXT is a Defense News Top 100 manufacturing and engineering innovator that provides safe and effective nuclear solutions for global security, clean energy, environmental restoration, nuclear medicine and space exploration. With approximately 7,000 employees, BWXT has 14 major operating sites in the U.S., Canada and the U.K. In addition, BWXT joint ventures provide management and operations at a dozen U.S. Department of Energy and NASA facilities. Follow us on Twitter at @BWXT and learn more at www.bwxt.com.
