

PRECISION TUBING

Highlights

Since the 1960s, BWXT Nuclear Energy Canada Inc.(BWXT) has manufactured high quality and reliable components for Canada Deuterium Uranium (CANDU®) nuclear reactors. Today, we continue our long history of excellence by manufacturing products that help our customers achieve their targeted goals more effectively.

The manufacturing of BWXT's tubular products is accomplished with state-of-the-art technology at our facility in Amprior, Ontario, Canada. We continually strive to improve our product quality and competitiveness by leveraging quality programs, such as Six Sigma and Lean Manufacturing, to meet and exceed market requirements. Additionally, we are able to meet ISO, CSA, ASTM and ASME standards.

Our capabilities include:

- Advanced ultrasonic examination
- Video scope inspection
- Cold pilger & draw bench technology
- Machining capability
- Vacuum annealing furnaces
- Tube surface polish conditioning
- Metallurgical laboratory

Nuclear Energy Canada Inc.

Product & Service Offerings

For decades we have been supplying high quality, dimensionally precise seamless tubing for our international and domestic markets.

Our Standard Products

- Seamless, thin-walled, precision tubing

Services

- Specialized heat treatment
- Metallurgical Lab Services

People Strong

INNOVATION DRIVEN >
