## BWXT Visit to the Petroglyphs Provincial Park and Curve Lake First Nation

Earlier this fall, BWXT employees participated in a cultural visit to the sacred grounds at Petroglyphs Provincial Park and Curve Lake First Nation.

## Social Media

We use our social media channels as a way to connect with our communities in Peterborough, Toronto and Arnprior. Follow BWXT NEC on X and Facebook for regular updates!

Peterborough, ON K9J 0A8

The visit offered BWXT employees the opportunity to learn more about the historical significance of the Petroglyphs from Elder Lorenzo Whetung and from Eliza Brayden-Taylor (Curve Lake Cultural Centre).

While there, some turtle eggs were found in the rock crevices. Amazingly, one of the eggs was still able to be hatched so much later in the season. The baby turtle was set free to live out its life at a nearby wetland (a safer environment) at the Petroglyphs.

## Peterborough Mayor Jeff Leal Visits BWXT

BWXT recently welcomed Mayor of Peterborough Jeff Leal, Rhonda Keenan, Executive Director of Invest Peterborough, and their staff to tour our facilities in Peterborough.

John MacQuarrie, BWXT President of Commercial Operations, provided an overview of our operations and shared how we support the production of clean power for communities and businesses across Ontario.

## Be a Voice for Your Community

The BWXT Community Liaison Committee is a forum for exchanging information between BWXT and communities in proximity to our facilities in Toronto and Peterborough.

As part of this volunteer committee, community members have the opportunity to raise questions or concerns about our operations and help identify opportunities to improve our outreach efforts.

If you are interested in learning more about BWXT operations in your community and be a voice for your community, please visit [www.nec.bwxt.com](http://www.nec.bwxt.com) to apply by December 15, 2023.

*Be a voice for your community!*

## COMMUNITY WEBINAR

Date: November 30, 2023

Time: 7:00 pm – 8:00 pm

Attend to learn more about BWXT's operations in Toronto and Peterborough.

To register for this community event, visit [www.nec.bwxt.com](http://www.nec.bwxt.com) or email us at [questions@bwxt.com](mailto:questions@bwxt.com).

## POWERQUIZ

Approximately, how much of the Ontario's electricity is generated by nuclear power?

- a) 20% | b) 40% | c) 60% | d) 15%

Answer: Nearly 60% of Ontario's electricity is generated by nuclear power.

## About BWXT NEC in Peterborough

In Peterborough, we assemble CANDU® fuel bundles using natural uranium dioxide ceramic pellets from our Toronto facility and zircaloy tubes from our Arnprior facility. The fuel bundles are then sent to Ontario Power Generation's Darlington and Pickering Nuclear Generating Stations. Both our Peterborough and Toronto facilities are licensed by Canada's nuclear regulator, the Canadian Nuclear Safety Commission (CNSC).

Approximately 400 people work at BWXT in Peterborough in high-tech, manufacturing and administrative positions (180 are engineers in disciplines such as software, metallurgy, mechanical, electrical and systems). This team produces the fuel to power 1 in 4 homes and businesses in Ontario with greenhouse gas emissions-free, affordable electricity.
