

An aerial photograph of a snowy landscape, likely in New Jersey, showing a mix of industrial buildings and residential areas. A river or canal winds through the scene. The sky is a pale, hazy blue.

BWXT IN NEW JERSEY

BWXT is proud to expand its North American commercial manufacturing operations to the state of New Jersey with the acquisition of Precision Components Group, LLC (PCG), including its subsidiary DC Fabricators located in Florence, New Jersey. The acquisition establishes additional U.S. commercial nuclear production capacity to serve growing domestic demand. The world-class capabilities of the Florence facility include heat exchanger equipment manufacturing:

- Small to medium-size cylindrical and rectangular condensers
- Heat exchangers for industrial and cogeneration applications
- Geothermal power plants
- Large main station condensers and process heat exchangers
- Components for nuclear power systems

Community Support

Creating a lasting, positive impact goes beyond supporting our employees. It extends to strengthening the communities where we live and work, and BWXT looks forward to creating deeper ties to the Florence community through corporate giving, employee volunteering, community engagement and school outreach.

OUR WORK IN NEW JERSEY

Our primary customer base in New Jersey is the United States Navy, with contracts placed by General Dynamics Electric Boat and Bechtel Plant Machinery, Inc. for both the Columbia and Virginia-class Submarine programs. The Florence facility is responsible of the design engineering and manufacturing of Main Condensers, Heat Exchangers and other auxiliary equipment.

About BWXT

At BWX Technologies, Inc. (NYSE: BWXT), we are People Strong, Innovation Driven. A U.S.-based company with more than 11,000 employees, BWXT is a Fortune 1000 and Defense News Top 100 manufacturing and engineering innovator that provides safe and effective nuclear solutions for global security, clean energy, nuclear medicine, space exploration and environmental restoration. BWXT owns and operates 19 manufacturing facilities globally, and its 14 strategic partnerships support the U.S. and Canadian governments at more than two dozen additional locations.
