

An aerial photograph of a city in Pennsylvania, likely York, showing a dense urban area with many brick buildings, streets, and green spaces. In the background, there are rolling hills under a clear sky. The text "BWXT IN PENNSYLVANIA" is overlaid in large white letters across the middle of the image.

BWXT IN PENNSYLVANIA

BWXT is proud to expand its North American commercial manufacturing operations to the Commonwealth of Pennsylvania with the acquisition of Precision Components Group, LLC (PCG), including its subsidiary Precision Custom Components (PCC) located in York, Pennsylvania. The acquisition establishes additional U.S. commercial nuclear production capacity to serve growing domestic demand.

Key Capabilities

With a facility spanning 11 acres, PCC is a build-to-print manufacturer of critically complex components that include the engineering and manufacturing of Missile Tubes, Valves, Transportation Casks and other auxiliary equipment. In addition, PCC holds several ASME certifications that are critical to support the emerging Commercial Nuclear market.

Fast Facts

Pennsylvania employees: **273**

Annual payroll: **\$23.7 million**

Pennsylvania suppliers: **145**

In-state purchases: **\$18.7 million**

Community Support

Creating a lasting, positive impact goes beyond supporting our employees. It extends to strengthening the communities where we live and work, and BWXT looks forward to creating deeper ties to the York community through corporate giving, employee volunteering, community engagement and school outreach.

OUR WORK IN PENNSYLVANIA

The primary customer base is the United States Navy with contracts placed by General Dynamics Electric Boat and Bechtel Plant Machinery, Inc., for both the Columbia and Virginia-Class Submarine programs and Reactor Servicing operations.

About BWXT

At BWX Technologies, Inc. (NYSE: BWXT), we are People Strong, Innovation Driven. A U.S.-based company with more than 11,000 employees, BWXT is a Fortune 1000 and Defense News Top 100 manufacturing and engineering innovator that provides safe and effective nuclear solutions for global security, clean energy, nuclear medicine, space exploration and environmental restoration.
